EXPERIENCE

Full Stack Developer Intern Dec 2024 - present
BucksBox Pvt Ltd *Karaikudi, Tamilnadu*

- Designed and developed the frontend of the BucksBox app's introduction website using HTML, Tailwind CSS, and Next.js, ensuring a responsive and user-friendly interface.
- Integrated and managed backend content using Strapi and PostgreSQL, improving data handling and content management efficiency.
- Assisted in backend development using PHP for specific features, contributing to API integrations and server-side logic.
- Collaborated with the production team to test and optimize app functionalities, improving performance and usability.
- Assisted in analyzing and refining the payment app's features for merchants and customers, including profit and loss tracking and product management.

Frontend Developer Intern Sep 2023 - Nov 2023
Baskethunt Pvt Ltd *Jharkhand, India*

- Interned as a web application developer for "Baskethunt," an online grocery shopping platform.
- Engineered the application using HTML, CSS, JavaScript, and to ensure a responsive and interactive user interface.
- Contributed to projects involving Zoho Cliq and Odoo, developing and implementing various functionalities.
- Developed and rigorously tested the application in Visual Studio, integrating features for browsing, selecting, and purchasing grocery items.
- Implemented dynamic features, such as form validations and interactive elements, to enhance the user experience.

ACADEMIC PROJECTS

Title - AI Authentication for security purpose. Developed for security purposes using the Grassman algorithm to authenticate individuals and ensure authorized access. AI authentication aids in automating attendance tracking, ensuring accurate and efficient monitoring of individuals based on their unique biometric or behavioral traits.

Title: PG Accommodation Finder for Karaikudi. Developed a web application to help users find suitable PG accommodations in my native hometown. The platform provides a user-friendly interface with features for searching, filtering, and booking PG using HTML, CSS, JavaScript, PHP, and SQL.
